WRITING (10 points)

Time: 40 minutes

Your municipal authorities are choosing a name for a new street in your town. They ask citizens to come up with a name of an outstanding person/people the street should be named after. Write a letter to the municipality suggesting a possible name of the street.

In your letter remember to

- state the purpose of writing the letter
- suggest a name for the street and explain why it is a good choice;
- say how the design of the street can reflect the concept of its naming;
- use the following words:

commemorate

facilities

urban

approve

embodiment

Do NOT write down the address.

Do not write down your REAL name.

Write 200-250 words.

Dear Sir,

I am writing to apply to you with the suggestion of choosing a name of Konstantin Tsiolkovski for the street in my hometown. I think it should be named after great constructor.

Konstantin Tsiolkovski was a scientist who invented a rocket with a motor. He predicted the first flight of a man. So, Konstantin Tsiolkovski could serve a good example for boys who want to become spacemen.

Our citizens think that the design of the street should reflect the life of the great man. Why not to build a stella and monuments in the form of stars on which we could write the names of our great spacemen. The main monument in the form of a rocket will be devoted to the founder of space Konstantin Tsiolkovski as an embodiment of his dream. I think we should commemorate his memory because he did a lot for our country, more than that our city has a lot of facilities. It will be good if we build also clubs for young explorers and good playgrounds for teenagers, which can help to train if a child want to be a cosmonaut.

I look forward to your reply and believe you will approve my opinion about our decision.

Your faithfully citizen,

N. Kus
